

K-LOVE is an awesome inspirational radio station in my community and throughout the country and world. It lifts the spirits of everyone who listens and helps them to remember they are loved.

If K-LOVE was not broadcast in my community I know many many citizens would be unhappy. They would no longer have a radio station to listen to in the car that helps them as they drive to remember to share their love with others by their positive and helpful driving. They would also miss out on a station that helps them to unwind after a hard days work.

K-LOVE is in the public interest in a positive way that most radio stations are not. It offers personal help with prayer lines, words of encouragement and spiritual growth. The community would be in a much selfish and unhappy environment without the broadcast of K-LOVE. Please continue their existence.
